About Us

Nedstar is a global sourcing partner specialising in bulk ethanol and spirits for food and non-food applications. With customers and a partner network in over 70 countries, our goal is to change the conservative ethanol industry with a high standard of quality products and trusting relationships based on sustainable and honest business practices.

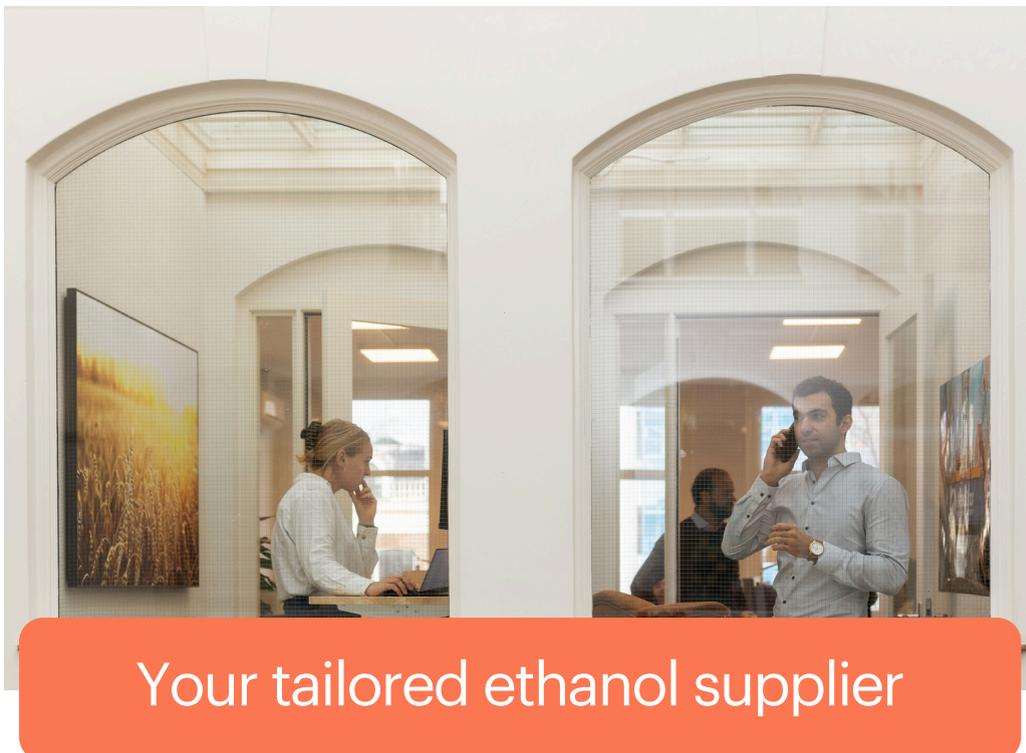

Our international team of commercial and logistic experts is focused on finding the best product solutions, tailoring each order to your needs.

Food-Grade Ethanol

ABV at 20°C > 96%

Organic Alcohol

- Neutral odour, colourless
- Made exclusively from organic ingredients, such as sugar cane or grain alcohols, without the use of pesticides or synthetic fertilizers

Extra-Neutral Alcohol

- Neutral odour, colourless
- Made from raw materials such as sugarcane/molasses and grains like corn, rye, wheat, barley and rice

2G Ethanol

- Neutral odour, colourless
- Made from non-food biomass with significantly reduced carbon footprint and potential for net zero emissions

Bulk Spirits

ABV at 20°C

All spirits can be certified organic

Whiskey

40% to 70%

- Odour and colour vary according to the type of whiskey
- Aged between 2 to 25 years
- We offer Scotch, Irish, Bourbon, Canadian and EU

Rum

40% to 95%

- Taste and colour vary with the ageing process
- Unaged or aged up to 32 years
- We offer White, Amber, Dark, Aged and Overproof rum

Brandy

38% to 77%

- Yellow-golden to red in colour with a sweet to mildly spicy taste
- Aged between 6 months to 15 years
- From France, Spain, non-EU, and more

Cachaça

48%

- Light and smooth taste with a spicy, mineral finish and colourless appearance
- Unaged or aged up to 5 years

Bulk Spirits

ABV at 20°C

Agave Spirits

38% to 55%

- Taste and colour depend on product and ageing
- Aged from 1 month to 4 years
- We offer Tequila, Mezcal, Raicilla, and Bacarona

Gin

35% to 55%

- Dry, with a juniper flavour and colourless
- Made from grain alcohol with botanical blends
- We offer London Dry, Plymouth, Old Tom, Genever, American, and Flavoured gin

Cider

4,5% to 14,9%

- Amber-brown colour with a sweet, acidic taste
- Aged from 3 months to 2 years

Wine Distillate

79%

- Neutral in colour, flavour varies by grape
- We also offer wine alcohol 96%

Vodka

> 37%

- Neutral taste and colour
- We also offer potato alcohol 96%

Bulk Spirits

ABV at 20°C

Cognac

40% to 60%

- Reddish-brown in colour with a sweet, spicy, fruity, and bitter flavour
- Aged from 2 to +14 years

Armagnac

52% to 60%

- Brighter flavour with earthy tones
- Aged from 1 to +10 years

Malt Wine

40% to 80%

- Dry taste with caramel tones
- Unaged or aged for up to 3 years

Baijiu

40% to 60%

- Floral, fruity, saucy, or spicy
- Made from sorghum or other premium grain alcohol like wheat, rice, and barley

Bulk Whiskey

ABV at 20°C

> 40%

Odour and colour

Both vary according to the type of whiskey, as it extracts characteristics from the wood in which it's aged

Ageing

From 2 to 25 years

Our Whiskey Selection

Scotch

Made from malt or grain, it has distinct smoky and peaty flavours

Irish

Made from malt, with flavours from light and floral to rich and complex

Bourbon

Made primarily from corn, it has a sweet and robust flavour profile

Canadian

Made from rye and a mix of grains and aged in oak barrels for a refined finish

Rye

Made from rye grain, it offers a spicier and fruitier profile

Corn

Made primarily from corn, it has a sweet and straightforward taste

Bulk Rum

All options are available from Caribbean and non-Caribbean origins

ABV at 20°C

40% to 75%

Odour and colour

The taste and colour can vary according to the ageing process

Ageing

From 6 months to 6 years

Our Rum Selection

White/Light

With a clear or slightly pale colour and a mild flavour profile

Gold/Amber

Aged longer than white rum, it has a richer colour and a more complex flavour, often with notes of vanilla, caramel, and spices

Dark/black

Deep, rich colour with a strong, full-bodied flavour profile

Aged/Premium

Ranges from lighter styles with oak influence to richer, aged tastes

Overproof

Higher alcohol content with an intense flavour

Agave Spirits

ABV at 20°C

38% to 55%

Odour and colour

Taste and colour vary according to the type and ageing process

Ageing

From 1 month to 4 years

Our Agave Selection

Tequila

Crisp, clean, and herbaceous taste with a golden colour

Mezcal

Bold and smoky flavours with a soft yellow to amber colour

Dark/Black

Deep, rich colour with a strong, full-bodied flavour profile

Raicilla

Floral aroma with a clear to light amber colour

Bacarana

Crystal clear with a dry and complex taste

Bulk Gin

ABV at 20°C

35% to 55%

Odour and colour

Dry with a juniper flavour and colourless appearance

Our Gin Selection

London Dry

Crisp and dry taste with a predominant juniper flavour

Plymouth

Smother and fruitier taste with a well-balanced juniper presence

Old Tom

Sweeter style

Dutch/Genever

More robust flavour profile, which can be either sweet or dry

New Western/American

Creative botanical combinations

Flavoured/Infused

Gins infused with various botanicals, fruits, or herbs

Raw Materials

All of our raw materials have at least 96% alcohol by volume at 20°C, are neutral in odour, and colourless. Read more to discover the applications of each product:

Sugar Cane Alcohol

Used in applications such as distilled spirits, preservatives, and solvents for colourants and flavours.

Sugar Beet Alcohol

Used in applications such as distilled spirits, vinegar, and solvents for colourants and flavours.

Potato Alcohol

Used in the production of vodka and other spirits, as well as in non-food applications within the pharmaceutical and cosmetics industries.

Grain Alcohol

Made from raw materials such as wheat, corn, rye, barley, and rice. It is used as a flavouring agent in cooking and spirits, as well as a key ingredient in the cosmetics industry for products like perfumes and fragrances.

Grape Alcohol

Also known as wine alcohol, it is used in a range of traditional drinks, including sherry and other fortified wines, pomace brandies such as grappa, and spirits such as gin and vodka.

Apple Alcohol

Crafted from the fermentation of apples, it is a key ingredient in traditional alcoholic beverages. In the non-food industry, it is used in cleaning solutions, solvents, and disinfectants.

Packaging

Exporting ethanol to countries worldwide from over 70 international suppliers requires appropriate packaging. To ensure your product arrives safely to its destination, Nedstar offers a range of packaging options, suitable for any industry or volume of ethanol

Drums

205, 237.5, or 250 litres / 55.5, 58, 66 gallons

Made of HDPE plastic and suitable for shipping liquids and powders

ISO tank

25,000 litres / 6,605 gallons

Safe and efficient transportation by ship or truck

IBC tote

1,000 litres / 264 gallons

Reusable and stackable, suitable for smaller quantities

Tank truck

35,000 litres/ 9,246 gallons

Reliable and cost-effective solution available worldwide.

Barge vessel

Up to 2,450 tonnes

Ensures smooth delivery through intermodal freight transport

Denaturants

If you are not processing your alcohol for food or drinks, we can denature it for you. This means the product will be exempt from taxes. Choose from the following denaturants:

Bitrex

**EURO
DENATURED**

**TSDA
1-9**

IPA

DEP

MEK

TBA

Certifications & Registrations

Our ethanol is always certified to BRCGS, ISO9001, REACH and ECHA Art. 95 standards. We can also certify your product as kosher, GMO-free, and organic, including EU Organic and USDA Organic. Nedstar has been awarded the EcoVadis Silver Medal, showcasing our commitment to sustainability, ethics and human rights.
